The **RE2 FAN** with VARIBEAM technology is the most affordable fan that lets you control the wind. The RE2 Fan is perfect for moving more air in all types of theatrical environments. Its unique design features one-touch moveable vanes, which adjust the width of the wind from a high velocity narrow spot, to a diffused wide beam. The RE2 is housed in a durable rotomolded hard shell and powered by a ball bearing, 1/3 hp motor with variable speed control. This compact unit weighs in at 23 lbs and balances on a versatile mounting yoke, which surrounds the unit for transport, and rests on any surface.

Specifications:

- Motor: Brushless, AC, Ball Bearing
- Power: 110 - 125v/4 Amp, 50-60 cycle
RPM: 3450, CFM: 2000
